FOR IMMEDIATE RELEASE

Logan Oil Tools Expands International Footprint

HOUSTON, TEXAS - July 19, 2011: Today, Logan Oil Tools, a wholly-owned subsidiary of Logan International Inc. and a leader in the manufacture and sales of a broad line of downhole products — retrieving tools, stroking tools, surface tools, remedial tools and related products — announced the opening of its sales office and stocking facility located in Edmonton, Alberta — the Company's second facility investment in the region. The expansion will add 7,800 square feet of first-class sales and warehouse facilities for distribution of Logan Oil Tools' product. This new facility will work in conjunction with the Calgary, Alberta, location to serve Logan Oil Tools' Western Canada market. "Logan Oil Tools continually invests in its facilities, technology, and people. We are very excited to expand both our investment and our local involvement in the Edmonton area," commented David S. Jones, Senior Vice President and Chief Operating Officer - Downhole Tools. In addition to eleven sales offices/stores located throughout the United States, Logan Oil Tools has three other international stocking point facilities established in strategic locations around the globe — Aberdeen, Scotland; Dubai, United Arab Emirates; and Singapore — to maximize delivery needs. Logan Oil Tools, based in Houston, Texas, has approximately 360 employees worldwide.

For additional information about the grand opening, Logan Oil Tools, or the Company's products, please visit the Company website at www.loganoiltools.com or call (281) 219-6613 (Houston); in Edmonton, call (780) 433-9957.

About Logan International, Inc.

Logan International manufactures and sells a broad line of downhole products — retrieving tools, stroking tools, surface tools, remedial tools — (Logan Oil Tools) and high-performance polycrystalline diamond compact (PDC) cutters and bearings (Logan Dennis Tool) for a variety of well workover, intervention, drilling, and completion activities. Logan International also provides well completion products and services (Logan Completion Systems) for oil and gas fracturing markets. Based in Calgary, Canada, and Houston, Texas, Logan International employs over 470 people worldwide. Visit www.loganinternationalinc.com for more information.
